

Dear Parent,

You have expressed interest in having your child evaluated for behavioral concerns or possibly Attention Deficit Disorder.

It is critical that we understand completely your child's difficulties in all areas. It is important that we evaluate information from home as well as school.

We are asking that you complete the enclosed questionnaire as well as the enclosed rating scales. Some of the information will seem very redundant. This is necessary to ensure that we obtain accurate diagnostic information.

Please fill out the forms as completely as possible. If you do not know the answer to a question, please write, "Don't know," so that we can be sure the item was not simply overlooked.

Additionally, we would like the teacher to fill out some rating forms and questionnaires. These forms are enclosed. Please take them to the school and ask the teacher(s) to complete them. You may either pick them up and bring them to us when they are completed, or ask the school to mail them directly to us.

Before we can schedule an appointment for this evaluation, we need the following pieces of information at the clinic:

1. Parent questionnaire
2. Parent rating forms
3. Teacher questionnaire and rating forms
4. Samples of your child's school work
5. Copies of any previous educational/psychological evaluations
6. Copies of any previous pertinent medical records concerning this problem

Once the information is completed we will be happy to schedule an appointment with your child's physician.

Thank you for your efforts in completing this. If you have any questions, please do not hesitate to contact us.
