

REGISTERING YOUR NEWBORN WITH PANW

STEP 1

Call your insurance company to determine whether Pediatric Associates of the NW is on your plan. Also determine which hospitals are covered under your plan. Our physicians see newborns at Legacy Good Samaritan in Portland. If your insurance does not cover delivery here or you choose to deliver elsewhere, another physician will see your baby in the hospital. Once you are home, our providers will see you for a newborn well visit in the office at 3-5 days of age (unless your discharge plan recommends a visit sooner).

STEP 2

Visit our website to learn more about each of our providers (portlandpediatric.com/providers). When you call to register your baby, we will ask which provider you would like to establish care with.

STEP 3

Please contact our office for a newborn appointment as soon as possible once you know when you will be discharged from the hospital

STEP 4

When a child is born, insurance companies usually allow 30 days for the child to be added to a policy. Please inform your insurance company as early as you can after the baby is born to avoid delays in billing and payment.
