

RECOMMENDED WELL CHILD VISIT SCHEDULE

Well visits are about more than staying up-to-date on your immunizations (Although those are important, too!). We consider ourselves a partner and an advocate for your child's well-being. Every visit is an opportunity to check and double-check your child's development, their physical and mental health, and your family's wellness goals.

	APPOINTMENT INFO	SCHEDULED IMMUNIZATIONS
2 Weeks Old	weight, length, head circumference, newborn screening #2 (PKU), health/developmental assessment	Hep B #1 (if not given at birth)
1 Month	weight, length, head circumference, health/developmental assessment	No immunizations scheduled
